

Porto Tram City Tour

What is Porto Tram City Tour?

The network of electric historical tramcars of STCP, SA - [Porto Tram City Tour](#) – constitutes an inescapable ex-libris of Oporto city. With a history dating back to 1872, when the first line of "American cars" of the city of Porto was inaugurated, the network of electric cars is currently constituted by 3 distinct STCP lines that run through the most emblematic areas of the city:

- [Line 1](#), or riverside line, makes the route between the historic centre of Porto and the garden of Passeio Alegre on a single path along the banks of the River Douro;
- [Line 18](#), or restore Line, which runs between Massarelos and the Carmo on a path that connects the historic parish of Massarelos to Garden of cordage, rope, Twine and its surroundings;
- [Line 22](#), or Low line, which traverses the emblematic streets of the city centre of Porto in a circular route between Casey and Battle/Guindais.

When can I travel in Porto Tram City Tour?

Porto Tram City Tour operates daily, with a variable timetable according to the seasons. Please check timetables clicking on each line:
